

Burnsview VEX Robotics Club Competition Roles 2018/19

Role	Description	Person(s)
Battery Manager	Checks all batteries before putting them on. Makes sure used batteries are being charged.	
Driver	Ensures the robot and controller connect before getting to the field. Ensures everyone has goggles. Drives the robot and is in charge of qualifications game strategies.	
Judging Coordinator	Ensures the team goes to the judges' table with all necessary material. Coordinates presentation of robot, code, etc.	
Manager	Holds on to checks and receipts if applicable. Ensures relevant forms are filled out (ex. food) in the morning. Ensures that the team passes inspection early in the day.	
Materials Manager	Assists in setting up the charging station. Ensures the tables are monitored over lunch hours. In charge of packing and unpacking.	
Mechanic	Checks if the robot needs repairs. Assists in setting up if testing autonomous. Also swaps license plates if necessary.	
Photographer	Takes pictures and videos and uses them for promotion.	
Programmer	Coordinates autonomous with alliance partners. Makes minor changes to code if necessary.	
PR Specialist	"Sells the robot" in the afternoon. Looks for potential playoff alliances. Will likely represent the team in alliance selection.	
Scheduler	Finds slots for judging and/or skills after seeing the schedule. Keeps track of match number and time. Ensures the robot gets to the field about 2-3 matches early. The only person to check rankings after a match. This person will keep the schedule, and others will take pictures of it.	
Scout	Talks to the alliance for the next match. Shares information, especially autonomous details, with the team. If necessary, they need to tell the programmer to change the autonomous. Also collects information on upcoming opponents and noteworthy teams.
